HAPPY CUSTOMERS

CAROL M.

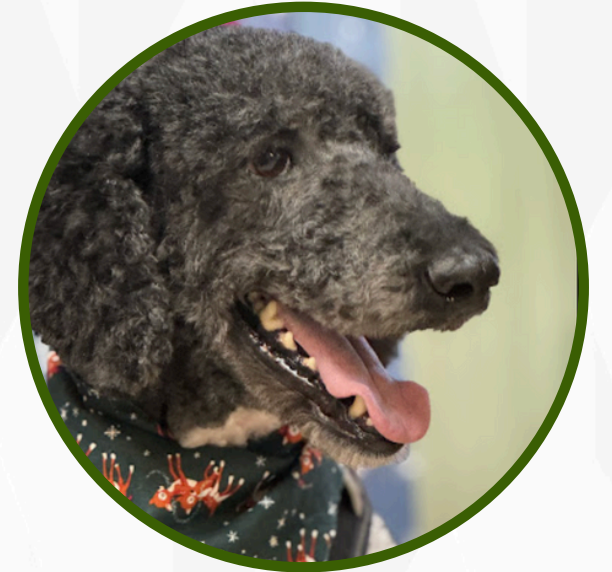

We always have a great experience at Bark & Purr! They do such a great job with our pup. He always comes back super clean and happy after his full grooming! We've tried lots of other places and always come back to Bark & Purr because they really listen to your requests and truly love animals. Their staff is incredibly friendly and professional. Highly recommend!

VALENCIA THIGPEN

Bark and Purr is such an awesome place to get your pets groomed. They always take good care of my Tucker when he is with him. The groomers are professional and very skilled. He goes monthly for a full groom! Even on his birthday they did something extra special for him and gave him a birthday boy bandana. I highly recommend Bark and Purr!

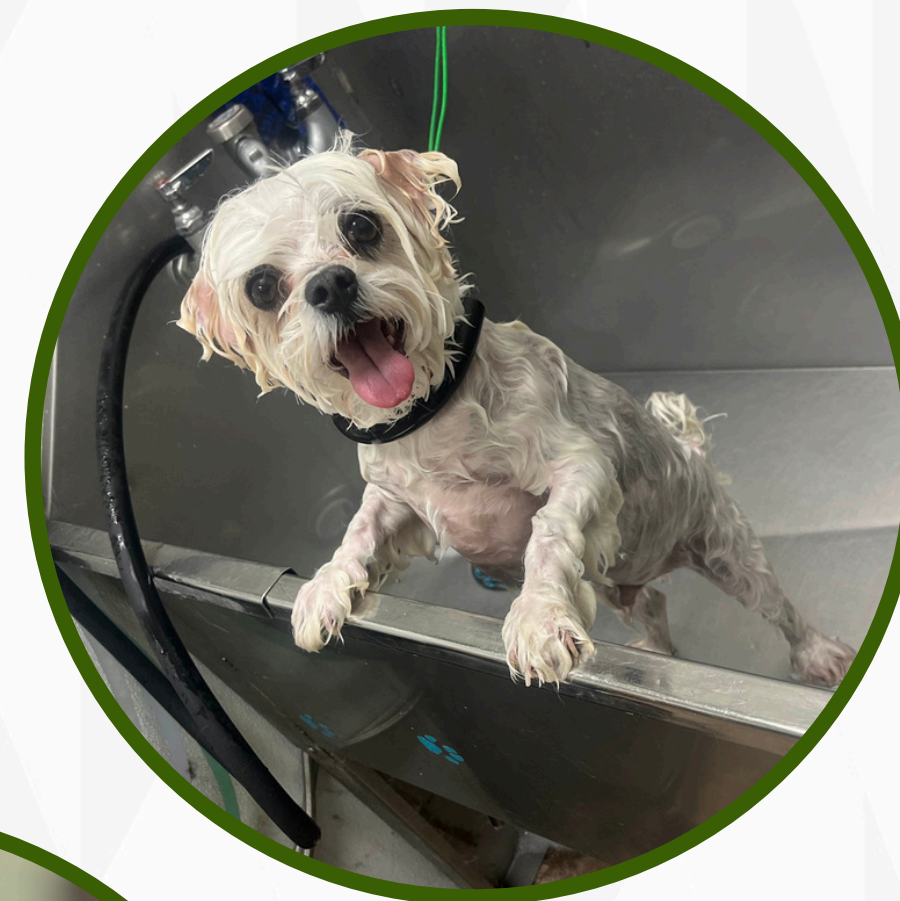

AHNA YANCEY

Excellent grooming. I have a large Doodle and a small one. My large one is strong and not always cooperative. I've had him groomed at other places and always felt sad that it was obvious they didn't like him. Bark and Purr is totally different. They love both of my dogs. Not one complaint from them or me. They have a fun shop with something going on all the time. They offer pickup and delivery at a small charge. The employees are friendly and approachable. Linda is one of the few Master Groomers in the state. I trust her and the other groomers with my babies and wouldn't think of taking them elsewhere.
